

# Benoît H. Dicaire

## Information Security Strategist

### BACKGROUND

As a **trusted advisor**, I tackle today's sticky problems for high-profile organizations like yours. I review, design and implement safeguards that keep your most **sensitive information** secure!

As a **frequent speaker**, I present strategies and discuss the issues at stake to raise awareness about today's information security threats, and encourage **risk management** that saves you time and money while protecting the confidentiality, integrity and availability of your critical assets.
